

Following a recent investment into new state of the art cutting machinery, we have ensured Nantwich Cheese remains at the forefront of product development, with a capacity to cut 30 tonnes of Block cheddar per day we can effectively meet the high demand and high production requirements that come with supplying some of the UK's largest foodservice companies and food manufacturers.

Our considerable experience combined with the latest technology means that customer orders are produced to our exacting standards.

The following pack sizes are available:

- 20kg
- 4x5kg
- 8x2.5kg
- 8x2.3kg
- Fixed weights 4 x 4.475
- Fixed weights 8 x 2.44
